

ProcurePilot — End-to-End (E2E) Testing Guide

A structured, role-based test guide for verifying the complete ProcurePilot system. Run each test case against a freshly seeded database and record PASS / FAIL in the result column. Every module is covered including the full procure-to-pay flow.

Test Environment

ITEM	VALUE
Base URL	<code>http://localhost:8000</code>
Database	SQLite (<code>database/database.sqlite</code>)
Test users	See table below
Seed command	<code>php artisan db:seed --class=SupplierDocumentRequirementSeeder</code> then <code>php artisan migrate:fresh --seed</code>
Server	<code>php artisan serve --port=8000</code>

Test users (all password: `password`)

ROLE	EMAIL
Super Admin	<code>super@nsc.gov.ng</code>
Admin	<code>admin@nsc.gov.ng</code>
Procurement Officer	<code>officer@nsc.gov.ng</code>
Approver (Tenders Board)	<code>tendersboard@nsc.gov.ng</code>
Auditor	<code>auditor@nsc.gov.ng</code>
Staff	<code>staff@nsc.gov.ng</code>

1. Authentication & Access Control

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
1.1	Valid login	Log in as <code>admin@nsc.gov.ng</code> / <code>password</code>	Redirected to dashboard (200)	☐
1.2	Invalid login	Wrong password	Error shown, no access	☐
1.3	Logout	Click logout	Returns to login page	☐

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
1.4	Super admin access	Log in as <code>super@nsc.gov.ng</code>	Sees Role & Access menu; can assign Super Admin role	☐
1.5	Admin cannot grant superadmin	As Admin, open Users → Add/Edit	"Super Admin" role option is hidden; API returns 403	☐
1.6	Role permission filtering	As Staff, note sidebar items	Only Dashboard, Tenders, Requests, Categories visible	☐
1.7	Permission denial	As Auditor, open Settings	403 (no access)	☐

2. Dashboard

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
2.1	Admin dashboard loads	Log in as Admin	KPI cards, charts, recent activity all render	☐
2.2	Monthly spend chart	Check Monthly Procurement Spend card	Real Chart.js interactive bar chart (12 months), values visible on hover	☐
2.3	Role-specific dashboard	Log in as Approver	Pending approvals panel shows only items the role can act on	☐
2.4	Pending approvals count	Compare nav badge vs list	Counts match	☐

3. Supplier Registration & Document Requirements

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
3.1	Admin configures requirements	Settings → Supplier Registration Requirements → Add	New requirement appears in the list	☐
3.2	Dashboard quick-add	Dashboard → "Add a Requirement" → submit	Requirement created (shown on dashboard + settings)	☐
3.3	Download requirements PDF	Click Download PDF on dashboard	Valid PDF downloads with org branding + full list	☐
3.4	Public PDF (client)	Visit <code>/supplier-requirements.pdf</code> logged out	PDF downloads, no login required	☐
3.5	Register supplier	Suppliers → Register → fill all fields	Supplier created with status Pending Vetting	☐
3.6	Upload per-requirement docs	Register supplier; upload a file in each Required field	Each file tagged to its requirement; uploads stored	☐

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
3.7	Required-field enforcement	Attempt submit with empty required doc	Browser blocks (required attribute)	☐
3.8	Compliance checklist	Open supplier profile	Shows each requirement met/missing + "X/Y required met"	☐
3.9	Edit adds uploads	Edit supplier → upload extra file under a requirement	File added; checklist count updates	☐
3.10	Approve supplier	As Approver, open supplier → Approve & Vet	Status → Approved; rating set	☐

4. Procurement Requests

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
4.1	Create request	As Staff/Procurement → New Request, add line items	Saved as Draft	☐
4.2	Submit request	Submit	Status → Pending Approval; approval records created per workflow	☐
4.3	Approve at level 1	As Approver, approve (value within first level)	Level 1 approved; still pending at next level	☐
4.4	Approve at level 2	As Admin, approve (value within second level)	Status → Approved	☐
4.5	Reject request	Submit new request, Reject	Status → Rejected with comment	☐

5. Procurement Plans

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
5.1	Create plan	Plans → New, add title/fiscal year	Saved as Draft	☐
5.2	Add plan items	Add items with category/cost/method	Items listed with totals	☐
5.3	Submit plan	Submit	Awaiting Approval	☐
5.4	Approve plan	As Approver, approve	Status → Approved	☐
5.5	Reject plan	Submit another, reject	Status → Rejected	☐

6. Budgets

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
6.1	Create budget	Budgets → New	Saved with allocated amounts	☐
6.2	Commit funds	Open budget → Commit	Committed amount increases	☐
6.3	Release funds	Open budget → Release	Committed amount decreases	☐
6.4	Budget visibility	As Auditor, open budgets	Read-only view (no create/edit)	☐

7. Tenders

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
7.1	Create tender	Tenders → New, fill details	Saved as Draft	☐
7.2	Add items	Add tender items	Line totals correct	☐
7.3	Add evaluation criteria	Add weighted criteria (total ≈ 100)	Criteria saved	☐
7.4	Publish tender	Publish	Status → Published; closing date in future	☐
7.5	Supplier sees open tender	Log in as Supplier, view tenders	Published tender visible	☐
7.6	Close tender	After closing date, close	Status → Closed	☐
7.7	Cancel tender	Create draft, cancel	Status → Cancelled	☐

8. Bids & Evaluation

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
8.1	Supplier submits bid	As Supplier, open published tender → submit itemised bid	Bid created as Submitted; total calculated	☐
8.2	Bid rejected when closed	Try bidding on closed/cancelled tender	Blocked (403/error)	☐
8.3	Score bids	As Officer, Evaluate → score each criterion	Weighted totals computed	☐
8.4	Recommend award	Click Recommend Award on top bid	Award created (Recommended)	☐
8.5	Withdraw bid	As Supplier, withdraw own bid	Status → Withdrawn	☐

9. Awards

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
9.1	Approve award	As Approver, approve recommended award	Status → Approved; tender → Awarded	☐
9.2	Decline award	Recommend another, decline	Status → Declined	☐
9.3	Create contract	From approved award → Create Contract	Contract created linked to award/supplier	☐

10. Contracts

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
10.1	Create contract	Contracts → New (from award)	Saved as Draft	☐
10.2	Upload contract document	Attach signed copy	Document uploads; can download	☐
10.3	Add milestone	Add milestone with due date/amount	Milestone listed as Pending	☐
10.4	Complete milestone	Mark milestone complete	Status → Complete	☐
10.5	Activate contract	Activate	Status → Active	☐
10.6	Complete contract	Complete	Status → Completed	☐
10.7	Terminate contract	Terminate	Status → Terminated	☐

11. Purchase Orders

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
11.1	Create PO	POs → New (from contract)	Saved as Draft	☐
11.2	Add PO items	Add items	Totals correct	☐
11.3	Approve PO	As Approver, approve	Status → Approved	☐
11.4	Issue PO	Issue	Status → Issued	☐
11.5	Receive goods (partial)	Receive with partial qty	Status → Partially Received	☐
11.6	Receive goods (full)	Receive full qty	Status → Received	☐
11.7	Cancel PO	Cancel a draft	Status → Cancelled	☐

12. Supplier Invoices (3-Way Matching)

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
12.1	Create invoice	Invoices → New, link to PO	Saved as Pending	☐
12.2	Verify invoice	Verify	Status → Verified	☐
12.3	Match invoice	Match against PO	Status → Matched (or Unmatched recorded)	☐
12.4	Approve invoice	Approve	Status → Approved	☐
12.5	Pay invoice	Pay	Status → Paid	☐
12.6	Reject invoice	Reject a new one	Status → Rejected	☐

13. Reports & Compliance

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
13.1	Run overview report	Reports → Overview	KPIs + data table render	☐
13.2	Filter report	Select type + filters	Results update	☐
13.3	Export report	Click Export	File downloads in chosen format	☐
13.4	Compliance dashboard	As Admin, open Compliance	Stats + framework + indicators render	☐
13.5	Compliance read-only	As Auditor, open Compliance	View only	☐

14. Approval Workflow

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
14.1	View workflow	Open Workflow	Departments, levels, pending, history render	☐
14.2	Add approval level	As Admin, add level with role + amount range	Level listed in sequence	☐
14.3	Amount routing	Submit a request within a range	Approval records only for matching levels	☐

15. Users & Role Access

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
15.1	Add user	Users → Add	User created	☐
15.2	Assign role	Edit user role	Role applied on next login	☐
15.3	Superadmin access matrix	As Super Admin → Role & Access	V/C/E/D/A matrix renders	☐
15.4	Update permissions	Toggle a permission, Save	Change immediate; audit record written	☐
15.5	Audit log	Open Audit Trail	All actions logged with user/timestamp	☐

16. Settings

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
16.1	Update organization	Settings → edit org fields → Save	Saved; shown on forms	☐
16.2	Configure gateway	Activate Paystack, enter keys → Save	Gateway active	☐
16.3	Requirement CRUD	Add / edit / delete a requirement	Reflected on supplier form + checklist	☐
16.4	Requirement toggle	Uncheck "Required"	Shows as Optional on forms	☐

17. Billing & Subscription

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
17.1	View plans	Billing → Plan	Starter/Professional/Enterprise with pricing	☐
17.2	Subscribe (demo)	Subscribe with demo gateway	Redirected to demo checkout	☐
17.3	Subscribe (real gateway)	Subscribe; complete on provider	Callback activates subscription	☐
17.4	Webhook	POST provider webhook to <code>/billing/webhook/{gateway}</code>	Subscription updated server-side (CSRF-exempt)	☐
17.5	Invoices	Open billing invoices	Invoice list + detail render	☐

#	TEST CASE	STEPS	EXPECTED RESULT	RESULT
17.6	Cancel / resume	Cancel then resume	Status reflects both	☐

18. End-to-End Procure-to-Pay Scenario

Run as a complete chain (this is the master test):

```
1. Admin configures required supplier documents (Settings + Dashboard quick-add)
2. Download requirements PDF → verify content
3. Officer registers a supplier, uploading all required documents
4. Approver vets and approves the supplier
5. Staff raises a Procurement Request → submits
6. Approver + Admin approve through workflow levels
7. Officer creates an approved Procurement Plan with the item
8. Officer publishes a Tender for the item
9. Supplier submits a bid
10. Officer evaluates (weighted scores) → recommends award
11. Approver approves the award
12. Officer creates + activates a Contract; adds milestones
13. Officer creates + approves + issues a PO
14. Officer records goods receipt (full)
15. Supplier invoice → verify → match → approve → pay
16. Verify spend appears in dashboard monthly chart + reports
17. Verify all steps present in Audit Trail
```

Expected: every step completes without error; statuses transition exactly as documented in the quick-reference table.

Quick-Reference: Status Lifecycles

MODULE	LIFECYCLE
Procurement Request	Draft → Pending Approval → Approved / Rejected
Procurement Plan	Draft → Awaiting Approval → Approved / Rejected
Budget	Draft → Active → Closed
Supplier	Pending Vetting → Approved / Suspended / Blacklisted
Tender	Draft → Published → Closed → Under Evaluation → Awarded / Cancelled
Bid	Submitted → Evaluated → Awarded / Rejected / Withdrawn
Award	Recommended → Approved / Declined
Contract	Draft → Active → Completed / Terminated / Expired

MODULE	LIFECYCLE
Purchase Order	Draft → Approved → Issued → Partially Received → Received / Cancelled
Supplier Invoice	Pending → Verified → Matched → Approved → Paid / Rejected
